# *Frontend Practical*

1. Add one "Display COVID delivery message"configuration under website -> Configuration -> Settings.
2. If this boolean value is true, then display message "Attention!We are temporarily suspending our services. Your needs have always been our priority, and our promise is that we will be back to serve you, as soon as possible. These are difficult times, times like no other. Never before, have communities stayed apart to stay safe! Never before, has being at home meant helping the nation!." in shop page as per the below image.

3. If the above boolean is true then make add to cart button as disable / invisible

Note: This last 3rd point is not mandatory, if you have time then you can try to attempt for this.
